SAILING AROUND CAPE HORN

Arrival 16/3/2022

Departure 16/3/2022

It's at the meeting point between the Atlantic and Pacific oceans that you enter Chilean Patagonia where you head for the Tierra del Fuego archipelago and its famous **Cape Horn**. From the top of its impressive 425-metre high cliff, South America's southernmost tip has, for many centuries, seen merchant ships from the world over passing by. Because of its legendary storms and rough seas, getting round this cape has gone down in history as a challenge for all seafarers.

Mountainous and rugged, the **Isla de los Estados** reveals the last ripples of the Andean cordillera. From the sea, admire its relief, covered with a dense and **inaccessible forest**, and the **rich wildlife** that peoples its waters (Magellanic penguins, Commerson's dolphins, etc.). A narrow pathway weaves around typical Falkland moorlands. Follow it and in under 20 minutes you'll find yourself at the heart of a colony of southern **rockhopper penguins, black-browed albatross and imperial shags**. You'll safely enter these blustery surroundings with the assistance of your naturalist guides. A peninsula located at the far north-east of the **Falkland Islands**, Volunteer Point, named after the ship *The Volunteer* which called there in 1815, promises moving encounters in the heart of totally unspoiled nature. Due to its exceptional birdlife, the spot is identified as an Important Bird and Biodiversity Area (IBA) and is, above all, renowned as the home of the island's largest **king penguin** colony. PORT STANLEY

Arrival 20/3/2022

Departure 20/3/2022

Situated at the far eastern end of the **Falklands' largest island, Port Stanley**, is the capital of this remote archipelago in the South Atlantic, composed of nearly 700 islands and islets. In 1764, **Louis Antoine de Bougainville** settled the first pioneers here and the port grew rapidly. Placed under the Spanish crown in 1767, then under British sovereignty since 1833, the town has retained some South American features fused with the **Victorian style** that punctuate the city, and the houses with their colourful roofs brighten the moorland landscapes with their windy and harsh climate reminiscent of the Scottish islands of Orkneys or Shetland. In front of the Cathedral, built in 1933, an arch made of

whale jaw bones reminds us that Port Stanley was once a whaling port.
